

***Two of the best in  
Dermatology have  
joined to better  
serve your needs.***

To All Our Valued Patients:

I have an important announcement to make! For what I believe is in the best interest of the patients of Maryland Dermatology Associates, I have decided to merge with Anne Arundel Dermatology, P.A., mid-January, 2017.

First and foremost, let me answer your most pressing questions and assure you of our ongoing commitment to you.

- “Are Dr. Germanas and his other providers still practicing?” **Absolutely! Same hours, same three locations, same personal care!**
- “Will Dr Germanas and his providers still accept my insurance?” **You bet!**
- “Do I need to do anything now?” **No, just contact us at our same phone numbers when you need to see one of us for your skin care needs!**

I have decided to join Anne Arundel Dermatology, a respected practice with over 40 years of experience, and an established presence throughout the state of Maryland. Anne Arundel Dermatology and I share a similar philosophy of personal service and I have known several of the Dermatologists for over 10 years.

It has been and will continue to be an honor and privilege to be entrusted with your dermatologic care. But, growing demand, changing mandates by insurance companies, and increased administrative complexities are distracting me from my primary goal: **providing exceptional patient care**. I will now be able to focus my attention entirely on patients. With this new partnership, Anne Arundel Dermatology’s team will provide support for all of the administrative complexities.

This merger will benefit you in many ways. In the near future look for:

- Centralized phone hours for more convenient appointment scheduling.
- Centralized billing.
- Expanded participation with insurance carriers
- Relocation of our Westminster and Eldersburg offices to more spacious, dermatology-dedicated spaces
- Addition of a Mohs fellowship-trained surgeon to assist in the management of skin cancer

To learn more about Anne Arundel Dermatology, visit [aaDermatology.com](http://aaDermatology.com) or call our office for details, 410-356-0171.

Your medical records will remain at our office and you will continue to be greeted and treated by me and my amazing team.

**I feel this is a positive development for all of us and will allow us to focus primarily on your care!**

I look forward to continuing our doctor-patient relationships with you as members of Anne Arundel Dermatology. Thank you for your support,

Juris Germanas, M.D.
